AGENDA

WILL COUNTY BOARD OF HEALTH MEETING
Will County Health Department
501 ELLA AVENUE
JOLIET, IL 60433
CONFERENCE ROOM 1005A / 1005B
MAY 18, 2022 – 3:00PM

DUE TO THE SHARP REDUCTION IN COVID-19 POSITIVE CASES IN WILL COUNTY, THE MOVEMENT FROM SUBSTANTIAL COMMUNITY TRANSMISSION TO LOW COMMUNITY TRANSMISSION, THE INCREASE IN ICU BED AVAILABILITY, AND THE LIFTING OF THE MASK MANDATE BY GOVERNOR PRITZKER, THE BOARD OF HEALTH PRESIDENT HAS DETERMINED THAT MEETING IN PERSON IS BOTH PRACTICAL AND PRUDENT FOR ALL MEETINGS OF THE WILL COUNTY BOARD OF HEALTH EFFECTIVE MARCH 11, 2022.

MISSION STATEMENT: ***To prevent disease and promote a healthier environment for all residents, business operators and visitors. Our agency of professionally trained staff work cohesively to assure public health and safety measures are maintained through services and programs the department provides based on the needs of the community.***

VISION STATEMENT: ***Deliver sustainable programs and policies in response to the public health needs of the community.***

CORE VALUES: ***Respect, Integrity, Professionalism, Quality, and Dedication.***

The Board of Health moved to approve the Treasurer's Report and Department Financial Reports for the month of March as presented.

RESULT:	**APPROVED [UNANIMOUS]**
MOVER:	Dr. Morales
SECONDER:	Dr. Reiland
AYES:	Dr. Terrell, Dr. Reiland, Chief Hertzmann, Mr. Cicero, Dr. Lipinski, Ms. Mackey, Dr. Morales, Ms. Parker, Dr. Pitsilos, Dr. Soderquist, Mr. Zelko

REPORTS FROM DIVISIONS
Reports were provided in the packet by the Chief Executive Officer, Chief Medical Officer, Division Directors, Interim Mass Vaccination Director, and Media Services Manager.

Administrative Services (Presented Monthly Reports for the month of March)
- Report of activities were provided in the packet for the Board's review.
- Ms. Bilotta provided a recap of the items included in her report, specifically regarding I.T.T. and Budget updates.

Behavioral Health Programs (Presented Monthly Reports for the month of March)
- Report of activities were provided in the packet for the Board's review.
- Dr. Troiani reported as of April 20th, BH has collected $343,000 in deposits.
- Dr. Troiani provided a recap of the items in his report including the grant and planning process with the Joliet Police Department regarding the 988 system.

Chief Executive Officer – CHC (Presented Monthly Reports for the month of March)

- Report of activities were provided in the packet for the Board's review.
- Ms. Maragos provided a recap of the items in her report including grant funding for nitrous equipment for Dental, a HRSA grant opportunity for additional ARPA funding, continued headway for the school-based health center planning grant, and continued funding from the Ryan White foundation for HIV positive clients.

Chief Medical Officer – CHC (Ms. Maragos presented on behalf of Dr. Byrd's report for the month of March)

- Report of activities were provided in the packet for the Board's review.
- Ms. Maragos provided a recap of the items in Dr. Byrd's report which included the COVID-19 update graphs, patient push-back regarding indoor masking, and the hiring of a Nurse Practitioner that will be starting in August.

Environmental Health and Lab (Presented a Monthly Report for the month of March)

- Report of activities were provided in the packet for the Board's review.
- Mr. Casey congratulated the new BOH officers and specifically thanked Mr. Zelko for hiring him and for his mentorship.
- Mr. Casey noted the Illinois General Assembly approved $50,000.00 in grant funds for restaurant owners and tavern operators.
- Mr. Casey reported EH has received their annual larvicide shipment and will begin dispersing to the other municipalities.
- Mr. Casey noted recruitment is near completion to satisfy the three summer intern staff needed for the West Nile and summer programs.
- Dr. Terrell inquired if the bird flu has started affecting the Joliet area? Mr. Casey replied, "not yet."

Family Health Services – (Presented Monthly Reports for the month of March)

- Reports of activities were provided in the packet for the Board's review.
- Ms. VanderBoegh noted the waiver for the Public Health Emergency for the WIC program has been expanded for an additional three more months. Preparations have begun to start bringing new, first-time clients to in-person appointments.
- Ms. VanderBoegh reported as of this morning, two Community Health Educators have been invited by IDPH to participate in the CDC webinar regarding youth e-cigarettes prevention and past and present media campaigns.

Emergency Preparedness and Response (EP&R) (Presented Monthly Reports for the month of March)
Reports of activities were provided in the packet for the Board's review.

Media Services (Presented Monthly Reports for the month of March)

- Reports of activities were provided in the packet for the Board's review.
- Mr. Bedore updated the Board regarding the upcoming changes to the website.
- Mr. Bedore provided the revised Resource Guides (RG) to the BOH and shared he has been distributing the guides to various municipalities and schools within the County.
- Ms. Olenek asked if anyone would like an additional supply of the RG's to please contact Mr. Bedore.

OLD BUSINESS

COVID-19 UPDATE

Ms. Weber presented a Power Point (PP) slideshow regarding COVID-19 vaccination updates as of April 20th. The PP slideshow included: vaccines administered / total completed doses, previous pop-up clinics, social media updates, and upcoming vaccination clinics / schedules for the pediatric population. Ms. Weber fielded and responded to questions from the Board.

- Ms. Olenek mentioned, prior to next month's meeting, we will be offering boosters. Ms. Baskin will email the information once provided from Ms. Weber.
- Dr. Lipinski inquired how do the vaccination rates compare to other counties? Ms. Weber mentioned, "Will County usually places 4th or 5th with other counties."

NEW BUSINESS

RESOLUTION #22-20 SURPLUS EQUIPMENT

The WCHD requires disposal and recycling of office equipment, phone equipment, copiers, electronics, televisions, routers and switches, computer related items, and other miscellaneous items from Administration, Behavioral Health, The Community Health Center, Environmental Health, and Family Health Services. The Board of Health approves the disposal and/or items necessary for recycling.

RESULT:	**APPROVED [UNANIMOUS]**
MOVER:	Chief Hertzmann
SECONDER:	Mr. Cicero
AYES:	Dr. Terrell, Dr. Reiland, Chief Hertzmann, Mr. Cicero, Ms. Mackey, Dr. Morales, Dr. Lipinski, Ms. Parker, Dr. Pitsilos, Dr. Soderquist, Mr. Zelko

RESOLUTION #22-21 HP D1380 SERVER FOR THE MICROSOFT HYPER-V INFRASTRUCTURE

CDWG has provided a quote for 64 Axiom AX-DDR4 memory modules at $234.31 each, totaling $14,995.84. The WCHD and CHC will utilize the memory, to increase the memory capacity of the Microsoft Hyper-V physical servers to support Health Department operations. The Board of Health approves the purchase of the Axiom AD-DDR memory modules, not to exceed $15,000.

RESULT:	**APPROVED [UNANIMOUS]**
MOVER:	Ms. Parker
SECONDER:	Ms. Mackey
AYES:	Dr. Terrell, Dr. Reiland, Chief Hertzmann, Mr. Cicero, Ms. Mackey, Dr. Morales, Dr. Lipinski, Ms. Parker, Dr. Pitsilos, Dr. Soderquist, Mr. Zelko

RESOLUTION #22-22 MAPP CONTRIBUTION TO UNITED WAY OF WILL COUNTY

The Health Department is one of several community partners on the MAPP Executive Committee to contribute financially to the MAPP initiative. The MAPP contribution for 2021-2022 is $10,000 payable to United Way of Will County acting as the MAPP fiscal agent. The Board of Health hereby approves the 2021-2022 MAPP contribution in the amount of $10,000.

RESULT:	**APPROVED [UNANIMOUS]**
MOVER:	Mr. Zelko
SECONDER:	Mr. Cicero
AYES:	Dr. Terrell, Dr. Reiland, Chief Hertzmann, Mr. Cicero, Ms. Mackey, Dr. Morales, Dr. Lipinski, Ms. Parker, Dr. Pitsilos, Dr. Soderquist, Mr. Zelko

RESOLUTION #22-23 2022 MEDICAL, BH, & HOSPITAL FEES INCREASE

The CHC provides medical, behavioral health, family planning, and hospital evaluation services, and procedures. The CHC Governing Council approved the fees and sliding fee scale changes at the April 6, 2022 meeting. The Board of Health approves increases for the CHC medical, behavioral health, family planning, and hospital evaluation charges.

RESULT:	**APPROVED [UNANIMOUS]**
MOVER:	Dr. Morales
SECONDER:	Dr. Lipinski
AYES:	Dr. Terrell, Dr. Reiland, Chief Hertzmann, Mr. Cicero, Ms. Mackey, Dr. Morales, Dr. Lipinski, Ms. Parker, Dr. Pitsilos, Dr. Soderquist, Mr. Zelko

RECRUITMENT AND BRANDING CAMPAIGN

Ms. Olenek presented two video compilations provided by the FOURCE. Feedback from the Board included: add more male inclusion, highlight more of the building interior / exteriors, not enough BH content from the CHC, and additional benefits offered (e.g., CME's for providers, Bilingual program, & SLF). Additional feedback: liked the years of service inclusion, benefits offered, nice diversity reflection.

Ms. Olenek will share the ideas / feedback with the FOURCE and will bring back to the meeting once the additions are added.

COUNTY PROGRAM TRANSITION TO HEALTH DEPARTMENT – KATHLEEN BURKE
Dr. Burke shared her excitement to transition to the Health Department from the County's program. Discussions included staffing, grant opportunities, and funding. The FY23 grant for Dr. Burke's program will begin July 1st. Dr. Burke fielded and responded to questions from the Board.

EXECUTIVE SESSION RE: PERSONNEL / LEGAL MATTERS – NONE

APPROVAL OF PERSONNEL STATUS REPORT FOR THE WILL COUNTY HEALTH DEPARTMENT
The Board of Health approves all personnel changes for the Will County Health Department for the month of April.

RESULT:	**APPROVED [UNANIMOUS]**
MOVER:	Chief Hertzmann
SECONDER:	Dr. Reiland
AYES:	Dr. Terrell, Dr. Reiland, Chief Hertzmann, Mr. Cicero, Ms. Mackey, Dr. Morales, Dr. Lipinski, Ms. Parker, Dr. Pitsilos, Dr. Soderquist, Mr. Zelko

BOARD MEMBERS' COMMENTS/CONCERNS
Ms. Olenek mentioned this is Mr. Zelko and Mr. Cicero's last meeting as Board members. Ms. Olenek and Dr. Terrell thanked Mr. Zelko and Mr. Cicero for their amazing contributions and mentorships. Mr. Cicero acknowledged there has been great succession planning and the transitions have been seamless and wished everyone the best of luck.

PUBLIC CONCERNS AND COMMENTS – NONE

ADJOURNMENT
At 4:19 p.m. a motion was made to adjourn the meeting.

RESULT:	**APPROVED [UNANIMOUS]**
MOVER:	Mr. Zelko
SECONDER:	Mr. Cicero
AYES:	Dr. Terrell, Dr. Reiland, Chief Hertzmann, Mr. Cicero, Ms. Mackey, Dr. Morales, Dr. Lipinski, Ms. Parker, Dr. Pitsilos, Dr. Soderquist, Mr. Zelko

Administrative Services Division Report
Elizabeth Bilotta
May 2022

Administration

1. On April 22, 2022, representatives from NACo (National Association of Counties) visited our 501 Ella Building for a tour and to discuss logistics of bringing their delegation to our campus on December 2, 2022, for a short presentation and tour as part of their 2022 NACo Fall Board of Directors Meeting and Large Urban County Caucus Symposium.
2. Representatives from Kluber Architects & Engineers (the architects / engineers for the construction of our new 501 Ella building) visited the site on Monday May 2nd to conduct a site recon for a photo shoot they are planning of the building at a later time.
3. The FY23 budget preparation is ongoing for all divisions as the submittal date for the first draft of the FY23 budget of May 13, 2022, draws near.
4. WCHD continues to work with WC EMA on a weekly basis to complete the submittal to FEMA for reimbursement of COVID / pandemic related expenses. The deadline for submittal was recently extended from April 1 to July 1 for 100% reimbursement of allowable and approved expenses.
5. The WCHD / CHC Joliet Campus celebrated Cinco De Mayo on May 5th by inviting a food truck to visit the Joliet Campus from 11 am to 2 pm. Staff enjoyed the food and the time together.

6. Earth Day was celebrated on April 22 by staff as they helped clean up the campus along with the Will County Highway Department who also cut down trees / brush around the CHC. Thank you to all staff and the WC Highway Department staff that participated in cleaning up our campuses. This event was featured in WC Land Use's "Green May News" along with photos of the staff as seen below.

Human Resources – BOH Report – provided by Stacey Knack, Human Recourses Program Coordinator
Human Resources is currently working on:

Timekeeping:
We are currently still working on the audit process of employees' time after the Kronos outage. A manual for the new timekeeping system that the County is implementing was sent out to assist with the testing of cases through the new system. HR hopes to have more information by next month on the progress. HR is currently assisting with the FEMA reimbursement submittal process in regard to COVID-19 hours worked for certain staff members.

Recruitment:
There is a total of 44 open positions within the Health Department/CHC. A total of six (6) new employees will be starting this month so far. We are currently getting back to the day-to-day operations and slowly reducing the number of temporary COVID related staff as our COVID operations slowdown.

We have one retiree this month with over 24 years of service for the Health Department.

Vaccination:
Our agency has a percentage of 90% of our employees/contract staff being vaccinated and 10% of unvaccinated employees / contract staff. Exemption letters are still being accepted from new hires and sent to the County Committee for approval.

Worker Compensation
Our work compensation cases are low; only two employees currently are off due to worker comp.

LOA/ FMLA:
Currently, we have a total of 4 employees on FMLA and no unpaid leave of absence employee.

Finance - BOH Report – provided by Denise Bergin, Director Finance & Grant Management
In addition to agency deposits, monthly and quarterly grant expenditure reporting:

1. State Fiscal Year 2023 grant applications continue to be completed as issued by the state. All continuing Department of Human Services (IDHS) Behavioral Health and Department of Public Health (IDPH) Comprehensive Health Protection grant applications have been submitted. State Fiscal Year 2023 begins July 1, 2022.
2. We are reviewing SFY2022 grant budget performance and completing budget revisions as necessary to ensure grant funds are fully expended by June 30, 2022.
3. We compiled the County Fiscal Year 2021 Schedule of Expenditures of Federal Awards for all federally funded Health Department grants, as required by the Will County Finance Department for the annual Single Audit performed by Baker Tilly. For CFY21, over $11.5 million in direct and state pass-through federal funding supported our programs. By comparison, in CFY20, $7.6 million in direct and state pass-through federal funding was expended.
4. We continue working to properly capture and record all Fiscal Year 2021 revenue as required during the CFY21 audit period. The tentative end date is May 23, 2022, at which time financial reports will be finalized.

Will County
Health Department &
Community Health Center

ITT- BOH Report – provided by Anthony Melei, Director ITT

My future updates will focus on specific areas of Information Technology and update activities as needed. This month I will focus on the Project Management Process.

Project Management Process

Utilizing Microsoft Project, and SharePoint I have created a Project Center for the Health Department and Community Health Center. The purpose of the project center at least for IT, is to have a workflow to evaluate Project Requests for Time, Budget, and Resources. Currently, we are only implementing IT Projects.

In the Project Center, we can configure the Will County Health Department and Community Health Center Enterprise Data that is common to all projects:

- Custom Fields and Lookup Tables
- Enterprise Calendars
- Resource Center
- Reporting
- Fiscal Period
- Manage Timesheets
- Project Tracking
- Project Types and Details

The Project Center is designed so that Executive Management can have a high-level view of the status of all projects and the resources available. Project Managers can create plans, update, and assign tasks related to the project. Stakeholders can get updates on the status of their project. Labor resources can update the status of their tasks and track the time spent on a project.

A SharePoint Site is associated for each project. The SharePoint site is used to capture notes, documents, and other details related to the project. This site will serve as a reference of the work done.

Will County
Health Department &
Community Health Center

Joseph E. Troiani, Ph.D., CADC
Director, Behavioral Health Programs
May 2022

1. The deposits for the month of April 2022 came to $135,698.10. For the current month of May 2022, the month-to-date (May 9, 2022) deposits so far are at $2,351.21 with pending deposits at $44,803.62.

2. The State of Illinois, Department of Mental Health (DMH), is funding a new educational program at Saint Francis University in their Department of Psychology. This is the Recovery Support Services (CRSS/CPRS) Program which trains students to become Certified Recovery Support Specialist (CRSS) or Certified Program Recovery Specialist (CPRS). The health department will provide the opportunity for their students to participate as Field Placement Interns in the Division of Behavioral Health promoting quality services and the Recovery Services profession.

3. A notice of funding opportunity (NOFO) was recently received. This is for the establishment of Program 420 "Suicide Prevention First Responders". What brought the issue of suicide among first responders was the First Responders Suicide Prevention Task Force - Final Report and Recommendations delivered to the 101st Generally Assembly on December 30, 2020. First responders are identified as law enforcement officers, fire fighters, and emergency medical service personnel. For State Fiscal Year 2023, $5 million dollars will be available for up to 20 grants ($200,00 to $250,000) to establish the following:

    - Increase access to peer support and mental health awareness and intervention training for first responders and their families.
    - Reduce the incidents of deaths by suicide among the first responders by supporting evidence-based interventions, specifically lethal means safety and related training and support.

4. This spring has seen announcements regarding historic funding levels adopted during this year's state legislative session championed by Majority Leader Greg Harris and Senator Elgie Sims Jr. The funding level is projected at approximately $170 million! Reimbursement rates for community mental health and substance use services will go into effect on July 1, 2022. The increases are permanent and will continue every year pursuant to Illinois Public Act 102-0699. The increases apply to services paid for by

HFS and by MCOs. Federal approval is required. If there is any delay, all increases are retroactive to July 1. SFY23 Medicaid Rate Increases:

- SUPR will realize an overall increase of 47% in the community based SUPR services from the existing (base) rates.
- Individual Therapy services will realize a $9 increase per service unit (1/4 hour).
- Community Support Individual services will realize a $15 increase per service unit (1/4 hour).
- Case Management services will realize a $15 rate increase per service unit (1/4/ hour).

5. Crisis Care System - Program 590 Program Development:

    - The following websites are operational to better understand the launching of dial #988 and the Crisis Care System:

      www.adovcatefor708.org

      Please visit this webpage for SAMHSA playbooks.
      https://www.nasmhpd.org/content/988-implementation-guidance-playbooks.

      SAMHSA 988 website:
      https://www.samhsa.gov/find-help/988

    - There are concerns that the dial 988 phone hub for the State of Illinois which is going to be operated by PATH, Inc. is not going to be ready for the July 2022 start-up date.
    - The management team of the division is actively recruiting candidates for the Program 590 positions.
    - The Department of Mental Health has distributed a general "readiness survey" to determine the state of readiness of Program 590 funded programs to launch in July 2022.

Respectfully Submitted,

Joseph E. Troiani

May, 2022

Cancellation of contract with Walmart- We have a contract effective 11-30-21 with Walmart Pharmacy to include them in our 340B program. Walmart will only use McKesson as its 340B wholesaler, meaning McKesson would supply the Walmart sites with prescription medication to replenish what is ordered from WCCHC providers and dispensed to WCCHC patients. Using McKesson requires a separate contract with them. McKesson required they be reimbursed for drug costs by either withdrawing funds directly from a Will County bank account, or payment terms of 15 days. We would not be able to comply with either arrangement. The loss of this contract translates to an estimated revenue loss of $50,000 annually. Our patients still have 52 pharmacy locations (Walgreens, CVS, Basingers and Kodocare) included in our 340B program from which to choose. The Governing Council gave its approval to terminate this contract with Walmart, with 90 days' notice.

Sliding fees for patients enrolled the Ryan White program – The Illinois Dept. of Public Health, who grants funding to AIDS Foundation of Chicago (AFC) for patients living with HIV (Ryan White program) has updated its policies regarding the collection of Ryan White program fees. Currently, AFC calls all patients who meet the income guidelines and have received free outpatient medical care, mental health, substance use and dental services at least every 6 months, to ask them for a minimum payment (see chart below). Based on IDPH's new policy, agencies such as the WCCHC who provide these services are asked to post the Ryan White fee schedule in a visible area for Ryan White patients to see and are expecting us to collect these fees. Per IDPH and AFC policies, there are no consequences for nonpayment and all charges are to be zeroed out at the end of the calendar year. This information should be posted with WCCHC grievance information. AFC will look for this posting during its annual site visit. The Governing Council approved this at our meeting on 5/4/22.

	Primary Care, BH, SUD, and Dental
Patient's Income	Visit Charge
0-100% FPL	$0
101-140% FPL	$0
141-200% FPL	$0.50
201-300% FPL	$1.00
301-400% FPL	$1.50
401-500% FPL	$2.00
501-800% FPL	$2.50

HRSA ARPA Supplemental Funding – The US Dept. of Health & Human Services Health Resource Services Administration (HRSA) recently announced the availability of supplemental funding for FQHC recipients of American Rescue Plan (ARP) funding. We received more than $3 million over 2 years from an ARP grant last summer. This supplemental funding is to support the upcoming 2023 transition in the way FQHCs will be expected to collect and report on annual data in the Uniform Data System (UDS) report. According to the funding notice, the purpose of the $60,000 supplemental funding is to "respond to and mitigate the spread of COVID-19 and enhance health care services and infrastructure." This funding can be used by health centers to increase COVID-19 vaccination, response, and treatment capacity; maintaining and increasing health center overall capacity, recovery, stabilization, and infrastructure; and expanding analytics and/or reporting capacity. The grant application is due on May 23. We are considering the following for this grant application: expansion of patient self-monitoring to include diabetes management as well as hypertension, medication inventory management, financial support of uninsured patients' COVID vaccinations and testing, and/or Nextgen population health analytics software.

CMO, Community Health Center (CHC)
May 2022

COVID UPDATE:

Within the State, Nation, and World:

~ numbers are steady, with only slight increases

	Cases	Recovered	Deaths
World:	50.9 million	46.2 million	6.2 million
United States:	82.6 million	80.4 million	~1.02 million
Illinois:	3.11 million	3.01 million	37 K

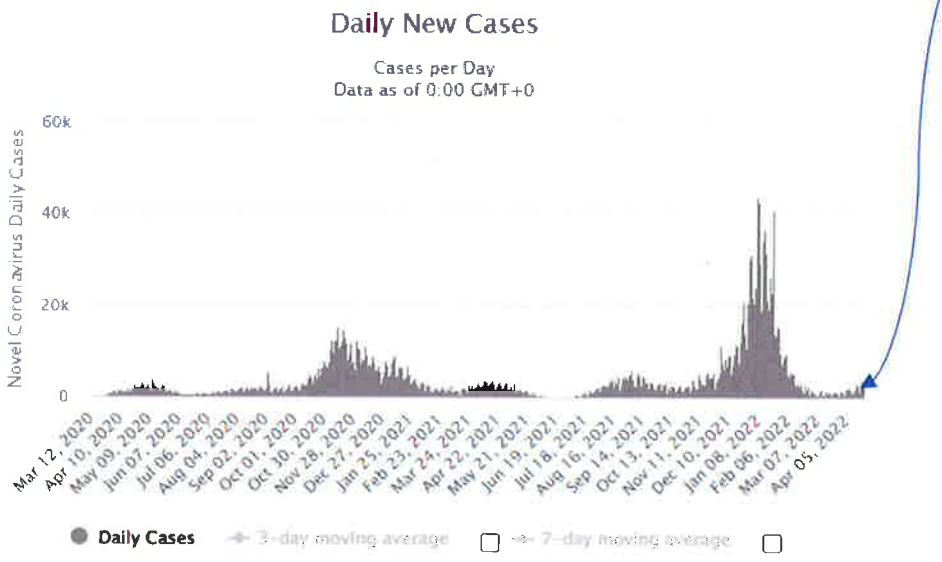
(worldmeters.info as of April 25, 2022)

Increase from 81.6 in 4 weeks

Increased from 64.6 in 4 weeks

Total Daily New Cases – Illinois (through April 25, 2022):

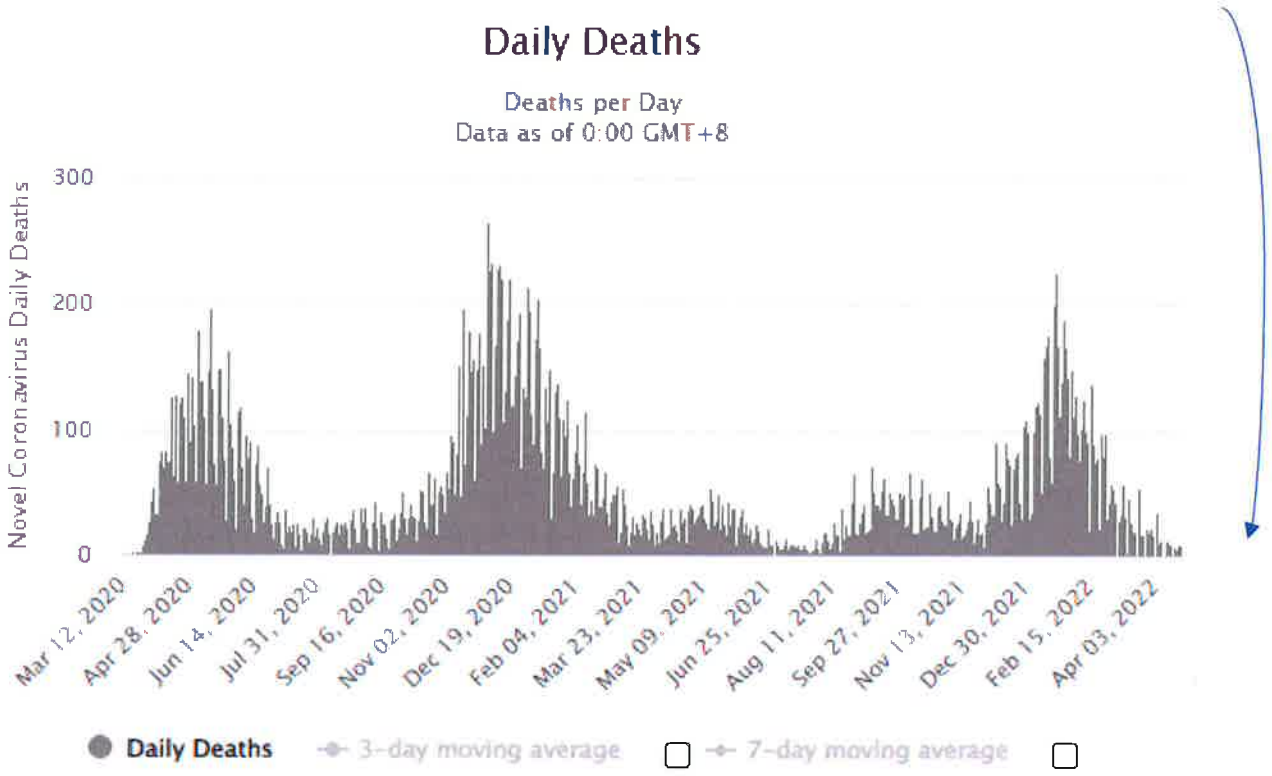
~ ***increase*** in cases as they are up ***FROM*** 748 daily new cases in March ***TO*** 3,807



Daily Deaths - Illinois (through April 3, 2022):

~ ***Decreased*** **FROM** 20 daily deaths in March 2022 **TO** 10 daily deaths as of April 25,

2022



COVID Summary (as of April 14, 2022; Institute for Health Metrics)

- **BA.2 surge is ending in Europe.** Cases are expected to continue declining in the Northern Hemisphere until next winter.
- **Omicron in China:** With only 2% of the population previously infected and 30% immune from vaccination, a large surge is expected if lockdown and strict control measures fail.
- **BA.2 in the US:** Some states are seeing a small rise in cases because of the BA.2 Variant, but high levels of immunity due to previous infection (76%) are preventing a large surge.
- **Mask wearing is below 25%** – the lowest since we began tracking.
- **Sharing antivirals and vaccines with countries in need is imperative.**
- **Policy recommendations:**
    - Secure and distribute antiviral medications as these save lives and prevent hospitalizations

- Reversal of the lifted mask mandate on Public Transportation and Airplanes
- Maintain surveillance systems to detect new variants, and should new escape variants occur, mask requirements should be reinstituted
- For those who are immunocompromised or have high risk factors: ***continue wearing a mask*** and avoiding large crowds, especially indoors.

COVID-19 Protocol Change:

It is of note that the community health center has changed its return to work policy for staff, it is (in ***blue***):

Staff member with COVID-like symptoms:

- must immediately (same day) submit to a rapid, PCR, COVID-19 test at the WCCHC

- if the COVID-19 test is negative,

** the symptomatic, but COVID-19 negative staff member, will be allowed to work should they feel capable of performing their duties (though it is **not advised** that a symptomatic staff member continue to work within the health center environment given the risk of transmission of disease to their co-workers and patients, some of whom are immunocompromised)*

** the symptomatic, but COVID-19 negative staff member, will be required to wear an N-95 mask for five (5) working days*

** the symptomatic, but COVID-19 negative staff member, will not be allowed to share in the communal dining areas*

** the symptomatic, but COVID-19 negative staff member, will be required to submit to a rapid, PCR, COVID-19 test every three (3) days for one (1) week; meaning, there will be COVID-19 testing initially, in three (3) days from the initial test, and in six (6) days from the initial test*

** should any testing result in a positive outcome, the staff member will be excused from work for a period of five (5) days, using benefit time during this sick leave event*

** upon return, after testing positive for COVID-19, the staff member will be required to wear an N-95 mask for five (5) business days*

Staff members who are exposed to a confirmed COVID-19 positive individual:

- must immediately (same day) submit to a rapid, PCR, COVID-19 test at the WCCHC

- must also provide written documentation of the COVID-19 positive individual's test

*Result to whom they were exposed, **and** complete and sign a form affirming that the staff member was indeed exposed to said COVID-19 positive person. This document will be properly vetted by the Communicable Disease (CD) staff of the WCHD*

- if the COVID-19 test is negative,

** the exposed, but COVID-19 negative staff member, will be allowed to work should they feel capable of performing their duties*

** the exposed, but COVID-19 negative staff member, will be required to wear an N-95 mask for five (5) working days*

** the exposed, but COVID-19 negative staff member, will not be allowed to share in the communal dining areas*

** the exposed, but COVID-19 negative staff member, will be required to submit to a rapid, PCR, COVID-19 test every three (3) days for one (1) week; meaning, there will be COVID-19 testing initially, in three (3) days from the initial test, and in six (6) days from the initial test*

** should any testing result in a positive outcome, the staff member will be excused from work for a period of five (5) days, using benefit time during this sick leave event*

** upon return, after testing positive for COVID-19, the staff member will be required to wear an N-95 mask for five (5) business days*

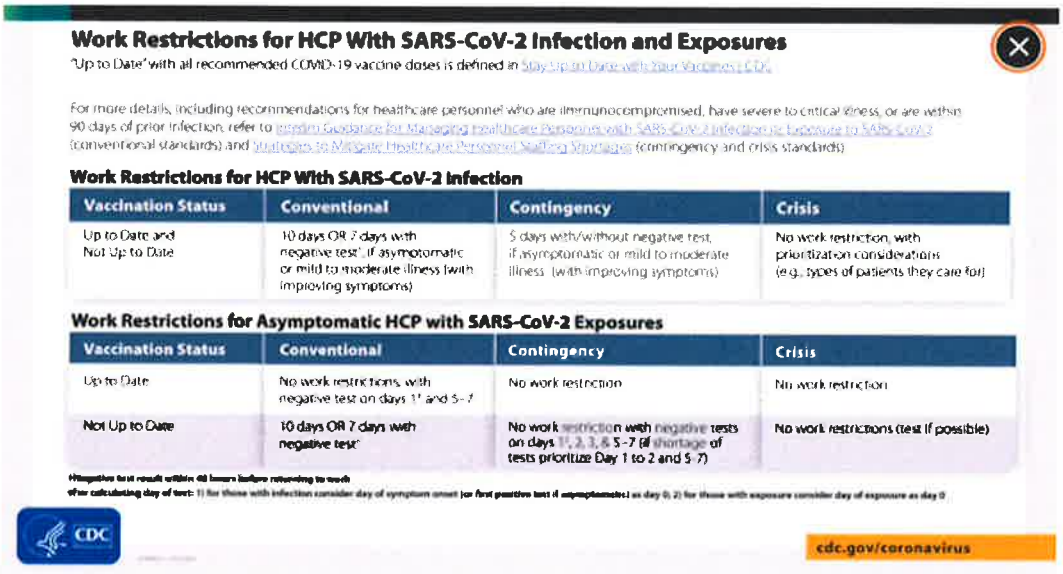
***Staff member who reports that they have tested COVID-19 positive**:*

- COVID-19 positive staff member must provide written documentation of their COVID-19 test result and complete the reporting form. This document will be properly vetted by the Communicable Disease (CD) staff of the WCHD

- COVID-19 positive staff member must sign a form, completed by the staff members' manager, affirming that they are indeed COVID-19 positive

- the COVID-19 positive staff member will be excused from work for a period of five (5) days, using benefit time during this sick leave event

- upon return, the COVID-19 positive staff member will be required to wear an N-95 mask for five (5) business days



Work Restrictions for HCP With SARS-CoV-2 Infection and Exposures

"Up to Date" with all recommended COVID-19 vaccine doses is defined in Stay Up to Date with Your Vaccines | CDC.

For more details, including recommendations for healthcare personnel who are immunocompromised, have severe to critical illness, or are within 90 days of prior infection, refer to Interim Guidance for Managing Healthcare Personnel with SARS-CoV-2 Infection or Exposure to SARS-CoV-2 (conventional standards) and Strategies to Mitigate Healthcare Personnel Staffing Shortages (contingency and crisis standards).

Work Restrictions for HCP With SARS-CoV-2 Infection

Vaccination Status	Conventional	Contingency	Crisis
Up to Date and Not Up to Date	10 days OR 7 days with negative test* if asymptomatic or mild to moderate illness (with improving symptoms)	5 days with/without negative test, if asymptomatic or mild to moderate illness (with improving symptoms)	No work restriction, with prioritization considerations (e.g., types of patients they care for)

Work Restrictions for Asymptomatic HCP with SARS-CoV-2 Exposures

Vaccination Status	Conventional	Contingency	Crisis
Up to Date	No work restrictions, with negative test on days 1† and 5–7	No work restriction	No work restriction
Not Up to Date	10 days OR 7 days with negative test*	No work restriction with negative tests on days 1†, 2, 3, & 5–7 (if shortage of tests prioritize Day 1 to 2 and 5–7)	No work restrictions (test if possible)

*Negative test result within 48 hours before returning to work

†After calculating day of test: 1) for those with infection consider day of symptom onset (or first positive test if asymptomatic) as day 0; 2) for those with exposure consider day of exposure as day 0

CDC

cdc.gov/coronavirus

Staffing Update:

The following positions remain **vacant** in the health center:

- Family Medicine Physician (1)
  * One interviewed last week, did not decide to join our practice
- Family Medicine Advanced Practice Registered Nurse (1) - ***hired***
- Mental Health Advanced Practice Registered Nurse (1) OR
- Psychiatry Physician (1)
- Registered Nurse (1)
- Registration Supervisor [(1) resigned 2 weeks ago]
- Nurse Population Health Manager (1)

Will County
Health Department &
Community Health Center

Thomas Casey
Director of Environmental Health
May 18, 2022

FOOD PROGRAM

1. The CDC released a statement on April 28, 2022 that a male Colorado inmate is the first human case infected by the Avian Flu in the United States. He was exposed while handling infected poultry at a commercial farm. He showed mild symptoms of fatigue and has been kept in isolation while being treated with an antiviral drug. The infected flock were euthanized and disposed of. Over 24 million chickens, turkeys and domestic birds have been killed in this country since February of this year. The H5N1 Avian Flu is the largest outbreak since 2014. It has been found in commercial birds in 29 states including Will County, Illinois and in wild birds in 34 states. The CDC recommends wearing masks, gloves, eye protection and proper hand washing for humans handling poultry products. The CDC stated that human to human transmission would be very rare. Only one case in 2,500 people exposed to infected birds has been discovered. The birds spread the disease in their mucous, saliva and feces. Human cases often show signs of eye infections, respiratory symptoms and pneumonia which can result in death. It is safe to handle and consume properly inspected poultry and it's recommended to thoroughly cook poultry and eggs to 165 degrees to kill bacteria and viruses including H5N1 virus.

2. On April 26, 2022, the US Department of Agriculture reported a recall of 120,872 pounds of ground beef products from Lakeside Refrigeration Services located in Swedesboro, New Jersey. The beef was found to be contaminated with E. coli bacteria. The beef is named under Thomas Farms, Nature's Reserve and Markerside Butcher Brands. The products were shipped nationwide. Thus far, there have been no reported illnesses, but they recommend that consumers check their freezers for these brands.

EH LAB / WATER PROGRAM / SEWAGE

1. The EH laboratory has analyzed a total of 2,084 samples during the month of April compared to 1,661 during the same time frame in 2021. The lab sampler and multiple sanitarians collected 348 IMS samples this past month.

2. We have collected 2,722 of 3,254 2022 invoices for IMS Permits to Discharge totaling $462,740.00. A total of 532 remain outstanding but we continue to process payments daily since the final invoices were sent out.

3. EH has processed another $5,710.00 in past due Permits to Discharge fees from previous years. Our complaint process used to collect past due permit fees continues to pay dividends.

4. As of today, we have sold 18 radon test kits for a total of $144.00 since January of 2022. This is half of what we sold last year at this time. This should increase as public events pick back up.

OTHER

- As of today, all 11 bathing beaches have paid for the 2022 inspection fees totaling $2,200.00. We have also collected $38,225.00 in swimming pool inspection fees. The remaining 8 pools that are unpaid will be getting a visit from one of our sanitarians with a hand delivered Final Past Due invoice to those facilities since their license to operate expired at the end of April.
- On May 16, 2022, our three interns will begin their summer internships in the West Nile surveillance and the public swimming programs. This year we have interns from Northern Illinois University, Illinois State University and Lewis University.
- Sanitarian Kyle Moy attended a meeting on May 5, 2022 with IDPH regarding all counties that operate a West Nile program. One of the main topics was the collection of dead birds that are used to test for the West Nile virus. Since the Avian Flu has started, they are expecting large numbers of dead birds to be found in groups. They are requesting that we do not collect those birds because it is highly unlikely that they would have died from West Nile but rather the Avian Flu. As part of our normal collection process, our staff will be equipped with the proper personal protective equipment and tools while collecting the dead birds so that they do not come in direct contact with the bird.

Will County
Health Department &
Community Health Center

Georgia VanderBoegh
Director of Family Health Services
May 2022

WOMEN, INFANTS, CHILDREN SUPPLEMENTAL NUTRITION PROGRAM (WIC)

For April, 76 new clients were added for a total of 8,347 enrolled clients with 7,298 active clients.

WIC staff have been actively using the IRIS referral system when they discover the client has a need. In May, WIC staff completed 49 referrals through the IRIS system and received 9 incoming referrals for clients who may need WIC. Most of the referrals made were to our Better Birth Outcomes (BBO) Program, but referrals were also made to CHC for dental clinic and pediatrics, the WCHD Behavioral Health division, Salvation Army, Morning Star Mission, and Trinity services for autism.

HIV/STI PREVENTION AND SURVEILLANCE & PRE-EXPOSURE PROPHYLAXIS (PrEP) CLINIC

In April, 11 HIV tests were done with 0 new positive cases detected. The team performed HIV outreach testing at River Walk Homes and the Community Health Center. The PrEP program saw no new patients, had 9 PrEP follow-up visits, and saw 14 patients in the Care Clinic for bloodwork, referrals to Infectious Disease and STD treatment and screenings.

Information about our Lead Poisoning Prevention, PrEP, Perinatal Hepatitis B Prevention and STD Programs was distributed to 40 clinics and Provider offices by the assigned Community Health Educator.

The PrEP Clinic, also known as "Care Clinic", recently celebrated 4 years of service for residents of Will County. The PrEP Clinic brings together the staff of the Community Health Center, and the Family Health Services' HIV and STD Programs. The PrEP ("Pre-Exposure Prophylaxis") Clinic's treatment includes a daily pill, and very specific follow-up visits, for the purpose of preventing the transmission of HIV. The Care Clinic is the only one of its kind in Will County. It is unique in that it not only provides "PrEP", but also provides quality HIV/STD prevention and care services for those at highest risk of acquiring HIV and STI's (sexually transmitted infections), surveillance of HIV cases, an HIV support group, linkage to care for person's living with HIV, screening and/or treatment for STI's, for both the patient and their partners. Staff are specially trained to address the patient's sexual health concerns in a confidential and comfortable way. In addition, WCHD staff conducts surveillance on positive cases of Chlamydia, Gonorrhea, and Syphilis.

ADOLESCENT HEALTH GRANT

Adolescent Mental Health-Work Plan

AH staff identified adolescent mental health needs through a survey. A work plan was created to address the mental health needs of adolescents. The work plan includes adding social media posts regarding where to seek mental health help in Will County, adding social media post regarding the openness to talk to your parents about mental health. In addition, during the Joliet West high school

minor consent training, additional power point slides were added to aid the mental health work plan. A slide was added to point out where adolescents can seek mental health help, at the Will County Behavioral Health and the Crisis Help line. The power point also had a slide that normalized the idea of talking to your parents regarding your mental health. During this presentation at Joliet West, a total of 131 students were reached regarding this mental health talk.

TOBACCO CONTROL & PREVENTION GRANT

WCHD Tobacco staff were invited by IDPH to present with them on the CDC Office of Smoking and Health Media Network webinar on April 21st on the large-scale media campaign that staff is working on in an effort to reduce youth vaping in Will County. Staff are using and tagging videos from the CDC's Media Campaign Resource Center (MCRC). Staff covered past campaigns they have done and then expanded on the current campaign. They focused on how they are targeting the youth population through social media platforms, movie theaters, and other media platforms. They also expanded on the concept of geofencing and tips on working with local vendors and building community partnerships. The audience and CDC OSH staff were very interested and appreciative of the information that was presented.

ALL OUR KIDS (AOK) NETWORK PROGRAM

Early Childhood Mental Health (ECMH) Training

The ECMH training will be virtual on May 13, 2022, and two speakers will provide trainings throughout the day. One speaker will be in the morning and another in the afternoon. Dr. Mona Ivey-Soto, PhD, MSW, MSEd will be presenting *From Awareness to Action: Understanding implicit bias, structural racism, and anti-racism as imperatives for equitable work with children, families, and communities.* Michael Trout, LCPC, I/ECMH-C, will be the afternoon presenter talking about "*The Holding Relationship" In Work with Young Children and their Families.* Live registration began on April 4th through Constant Contact. To register: https://tinyurl.com/ecmh2022

INCREASING WELL-WOMAN (WW) VISITS PROGRAM

In late April we welcomed Joan Stefka, our new Community Health Educator (CHE), who will be working primarily with the Well-Woman grant. She has been busy creating social media posts and media campaigns promoting Well-Woman visits but also promoting the Community Health Center if a woman does not have a provider. Both of these posts are also available in Spanish.

BINAX NOW UPDATES

iHealth and BinaxNOW tests

IDPH continues with their efforts to change the brand of COVID-19 Rapid Antigen Tests made available to community testing sites. This requires:

- Informing the testing sites and test administrators
- Assuring that all who tests have received required training
- The CLIA office is advised to add iHealth to their license
- RedCap/Simpe Report are notified of the addition of iHealth
- Providing WCHD Medical Orders for the provision of iHealth tests

We have created and distributed an instructional booklet with associated appendices to all sites, and are available to provide additional guidance.

IDPH is currently making both Binax and iHealth tests available for distribution. Due to the time required to assure all conducting the tests are appropriately trained, we have requested both brands, during the transition.

Tests continue to be provided to: First Responder Agencies, Schools/School Districts, Colleges/Universities, Treatment Centers, Dental Care Providers, Hospice Agencies, Businesses, Detention Centers, Medical Clinics, Surgery Centers, and WCHD Clinics.

Memorandums of Agreement

All participating sites are being asked to update their testing MOAs with the WCHD.

April Data

- 24 community testing sites requested COVID-19 Rapid Tests in April
- 3110 tests were made available
  - 1940 BinaxNOw test
  - 1170 iHealth tests
- 100 community sites with more than 150 testing locations have enrolled in the program
- 32 sites have updated the MOA

MEDIA SERVICES

APRIL 2022

FROM THE DESK OF MATTHEW BEDORE

MONTHLY REPORT

April saw the start of the transformation of the webpage from its COVID-19 focus. We have begun the job of winnowing the COVID-19 pages of repetitious and outdated content. Outside of our COVID-19 content, a number of small adjustments have been made throughout the site, though the most substantial change is best seen on the Teen Clinic page of the Community Health Center. As much of the redesign relies on videos produced by CHC staff, Will County Health Department and Media Services had to create a new YouTube page.

The main change, the homepage redesign, went from the planning stage to the draft stage. The hope is that by the end of May WCHD's webpage will have a new, issue and program centered homepage with improved navigation and some tools designed to simplified many users interaction with the site. For example, there will be a prominent 'I would like to" button that should link users directly to our pages that will assist them in completing common HD related tasks. The redesign of the homepage will see the return of a search function.

As usual, social media was leveraged to communicate various WCHD related messaging. We use our social media platforms to celebrate National Public Health Week, National Minority Health Week and Earth Day. We also used our social media platforms to raise awareness regarding STD Week and National Child Abuse Prevention Month. We also used our social media to assist United Way in its efforts to publicize the 2-1-1 call service.

April ended with an appearance at the Will County Center for Community Concerns Family Fun Fair. WCHD, along with numerous other agencies and governmental bodies, spent a cool and breezy afternoon sharing critical information for the many attendees.

Health departments in Northern Illinois to the public: COVID knows no boundaries

Public urged to work together and follow CDC guidance for medium community level

Local health departments belonging to the Northern Illinois Public Health Consortium (NIPHC) are advising people who live and work in the region that COVID-19 case rates are rising and now is the time to work together to avoid a surge in cases, hospitalizations and deaths.

Most counties in the northern Illinois region – including Cook (city and suburbs), DeKalb, DuPage, Lake, Kane, McHenry, Kendall, Will and Winnebago – have moved from low to medium community level transmission for COVID-19 in recent weeks. Based on regional metrics, additional counties in northern Illinois are expected to also move to medium community level transmission.

CDC Community Levels show the level of impact COVID-19 illness is having on health and healthcare systems to help communities and their residents decide what prevention steps to take based on the latest data. The CDC defines medium level as higher than 200 cases per 100,000 residents.

"We want our communities to be proactive and take additional precautions to prevent surges that have been observed in other areas of the country, which could impact hospitals' resources and our congregate settings that care for the most vulnerable," said Dr. Sandra Martell, NIPHC President and Winnebago County Health Department Public Health Administrator. "COVID-19 knows no bounds. We are all interconnected and must work together."

Protect yourself and others from getting and spreading COVID-19:

- Know your risks. If you are immunocompromised or high risk for severe disease, talk to your healthcare provider about whether you need to wear a mask or a respirator and if you are a candidate for available treatment options.
- Be considerate of others. People are free to wear a mask at any time.
- Stay up-to-date on vaccinations or get vaccinated if you haven't done so already.

- Stay home if sick and avoid others who are sick. Follow CDC recommendations for isolation and quarantine, including getting tested if you are exposed to COVID-19 or have symptoms.

"These recommendations are not new but are being emphasized to protect our communities from further increases in COVID-19," said Dr. Rachel Rubin, Co-Lead and Senior Medical Officer at Cook County Department of Public Health.

To order free supplies such as masks and test kits and to find treatment locations, vaccine and boosters, visit covid.gov.

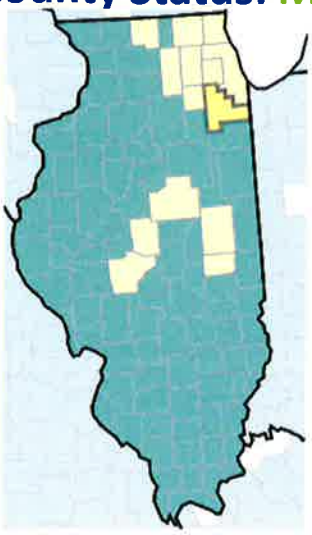
WILL COUNTY POSITIVITY RATE, 5.12.22

WE WILL WIN

Will County Status: Medium

MEDIUM LEVEL PREVENTION STEPS

- **Get tested if you have symptoms**
- **Stay up to date with COVID-19 vaccines**
- **Wear a mask if you have symptoms, a positive test of an exposure OR if you are taking public transportation**
- **If you are at high risk for severe illness, talk to your healthcare provider about whether you need to wear a mask and take other precautions**



WEEKLY CDC METRICS

- Case rate per 100k population: **239.6**
- New COVID-19 admissions per 100k: **5.1**
- % inpatient beds in use by COVID-19 patients: **2.7%**

WILL COUNTY HOSPITAL ADMISSIONS

- COVID Patients: **21**
- COVID Patients ICU: **0**
- COVID Patients Vented: **0**

2

CDC New COVID-10 Community Levels and Indicators

New Cases (per 100,000 population in the last 7 days)	Indicators	Low	Medium	High
Fewer than 200	New COVID-19 admissions per 100,000 population (7-day total)	<10.0	10.0-19.9	≥20.0
	Percent of staffed inpatient beds occupied by COVID-19 patients (7-day average)	<10.0%	10.0-14.9%	≥15.0%
200 or more	New COVID-19 admissions per 100,000 population (7-day total)	NA	<10.0	≥10.0
	Percent of staffed inpatient beds occupied by COVID-19 patients (7-day average)	NA	<10.0%	≥10.0%

The COVID-19 community level is determined by the higher of the inpatient beds and new admissions indicators, based on the current level of new cases per 100,000 population in the past 7 days

Will County Board of Health
Resolution #22-24

Resolution of the Will County Board of Health
Will County, Illinois

APPROVAL FOR THE PURCHASE OF NARCAN NOT TO EXCEED $14,580

WHEREAS, the Will County Office of Substance Use Initiatives distributes Narcan (a nasal spray form of the opioid overdose reversal medicine Naloxone) and offers training on how to administer it to first responders, social service workers, local organizations, and interested members of the community, and

WHEREAS, the Will County Health Department is working with the Will County Office of Substance Use Initiatives to expand its harm reduction efforts by purchasing additional Narcan for the County which will be provided to participants after completing the training program, and

WHEREAS, the purchase of additional doses of Narcan will allow the Will County Office of Substance Use Initiatives to continue providing training sessions to groups and organizations in Will County.

NOW, THEREFORE, BE IT RESOLVED the Board of Health approves the payment not to exceed $14,580 to ADAPT Pharma, Inc. (see attached estimate).

DATED this 18th day of May, 2022.

Billie Terrell, Ph.D., President
Will County Board of Health

EMERGENT

May 05, 2022

Val Cheney,

Per your request, please see information below on pricing for NARCAN® (Naloxone HCl) Nasal Spray 4mg.

Will County Health qualifies to purchase NARCAN® Nasal Spray at Emergent Device's public interest pricing of $67.50 per carton. Each carton contains two 4mg devices.The minimum order is 1 case (12 cartons) which is $810.00. There is no shipping charge.

If you would like to purchase 18 cases (216 cartons), the total would be $14,580.00. Please refer to the Terms & Conditions for additional information.

Sincerely,

Eric Karas

WILL COUNTY BOARD OF HEALTH
RESOLUTION #22-25

RESOLUTION OF THE WILL COUNTY BOARD OF HEALTH WILL COUNTY, ILLINOIS

APPROVAL TO ADOPT THE RYAN WHITE GRANT FEE SCHEDULE FOR GRANT COVERED SERVICES- CHC

WHEREAS, the CHC provides medical, behavioral health, substance use and dental services to those eligible for services under the Ryan White HIV Grant, and

WHEREAS, in keeping with the changes made to the program fee schedule collection process, IDPH now requires the grantees to collect the appropriate fees, and

WHEREAS the sliding fees scale (see attached) was provided by IDPH for implementation and patient information, and

WHEREAS the CHC Governing Council approved the revised sliding fee scale at the May 4, 2022 meeting.

THEREFORE, BE IT RESOLVED the Board of Health approves the attached sliding fee scale for the Ryan White grant services at the CHC.

DATED THIS 18th day of May 2022.

Dr. Billie Terrell, President
Will County Board of Health

From: Bashirat Olayanju <BOlayanju@aidschicago.org>
Sent: Monday, April 4, 2022 6:25 PM
Subject: RW Fee Collection Policy Change
Importance: High

CAUTION: This email originated from an outside source.

Good Evening,
IDPH has updated its policies regarding the collection of RW program fees. Currently, AFC places a call to all clients who meet the below income guidelines and have received **outpatient medical care, mental health, substance use and dental services** at least every 6 months to ask for payment. Based on IDPHs new policy, agencies are asked to post the fee schedule in a visible area for RW clients to see. There are no consequences to nonpayment and all charges are zeroed out at the end of the calendar year. Ideally this information should be posted with agency grievance information.

Income	Charge
0-100% FPL	$0
101-140% FPL	$0
141-200% FPL	$0.50
201-300% FPL	$1.00
301-400% FPL	$1.50
401-500% FPL	$2.00
501-800% FPL	$2.50

Please begin to take steps to be in compliance with this new policy. AFC will include this as part the annual site visit process.

If you have any questions, please do not hesitate to reach out to me.

Thanks

WILL COUNTY BOARD OF HEALTH
RESOLUTION #22-26

RESOLUTION OF THE WILL COUNTY BOARD OF HEALTH WILL COUNTY, ILLINOIS

RESOLUTION FOR APPROVAL OF THE PURCHASE OF ULTRASOUND MACHINE FOR THE CHC NOT TO EXCEED $40,000.

WHEREAS, the Will County Community Health Center received a Notice of Award from HSRA's American Rescue Plan Act (ARPA) (H8F) Grant to Build Capacity and Infrastructure for Community Health Centers; and

WHEREAS, the ultrasound machine is no longer working despite being serviced by a licensed biomedical equipment company; and

WHEREAS, there is a need to replace the malfunctioning ultrasound equipment to ensure the OB providers are able to provide safe, comprehensive care for patients of the health center; and

WHEREAS, the ultrasound is critical to ensure patient safety and to avoid serious disruption of services, this purchase shall be made as an emergency procurement.

NOW, THEREFORE, BE IT RESOLVED the Board of Health approves the purchase of one ultrasound system for the OB/Gyn area, and payment of an amount not to exceed $40,000 to McKesson, Medical-Surgical.

DATED THIS 18th day of May 2022.

(Initial)

Co-Op Funds: To the extent that Advertiser elects to use 3rd party co-op funds to purchase advertising hereunder, Advertiser shall be solely responsible for obtaining all necessary approvals and completing all paperwork in connection therewith. Notwithstanding any intent of Advertiser to use 3rd party co-op funds, Advertiser is solely responsible to SVD for the payment to SVD of the agreed sum

TERMS AND CONDITIONS

This Agreement consists of this Insertion Order and the Screenvision Direct, Inc. Local Advertising Terms and Conditions ("Terms and Conditions"). A copy of the Terms and Conditions is located at www.screenvisionmedia.com/local-terms-and-conditions. Screenvision Direct, Inc. may change or modify the Terms and Conditions at any time without notice to Advertiser. It is Advertiser's responsibility to periodically review the Terms and Conditions for updates or changes. A hard copy will be provided to Advertiser upon request. The Terms and Conditions are incorporated herein by reference, and are hereby made a part of this Agreement. This Agreement is subject to New York State law. Advertiser hereby acknowledges that Advertiser has had an opportunity to review this Agreement, including the Terms and Conditions, prior to signing this Insertion Order, and agrees to and intends to be bound by the Terms and Conditions. Further, the signatory hereby warrants that the signatory is duly authorized to enter into this Agreement on behalf of the Advertiser.
